Marshall Norman is a designer from Dayton, Ohio with over 15 years of experience specializing in **design systems**, **human centered product design**, and bridging the **designer/developer gap**.

Marshall likes to dig deep and get to the root of problems while working closely with a group of other skilled individuals. His experience writing solid front-end code has given him a valuable perspective on how design and development decisions can impact each other.

Work:

Staff Product Designer at **Dialpad**
2021-present
